Dear Hal:

I'm enclosing a few articles plus a copy of a letter that Max Holland sent me in response to a letter I sent him criticizing his review of different books.

I did reply to his December 27th letter in a four page response. As you can see from his letter his unawareness of facts has obviously prejudiced his position from the start. Since he appears to be the only one on the "Nation" handling the JFK case he is in lock-step with the "Nation's" position which is no surprise when one considers the "Nation's" track record.

Gary Aguilar sent me a note that he'll be speaking on Wednesday evening, Feb. 10th at the UCSF Health Sciences Building on the "Recent Disclosures on the Medical Aspects of the JFK assassination." I most likely will go but even he noted in his note to me that I've "heard it all before." Who knows, perhaps I'll meet someone there who shares my particular

points of view on the Medical Evidence and how the ARRB failed to handle it.

If I do go I'll probably ask Gary to take me there because as of this year I have no car to drive around in. What happened is that almost on the last day of 1998 while driving one early morning on one of the highways a car sideswiped my left side and forced me into a grassy ravine area off the highway's edge. I ~~was~~ crashed through two road barriers and my car was totally damaged. No — I wasn't at all injured — not even a scratch, luckily enough. I owe it all to the 2 road barriers and my having the seat belts on which broke the head on crash into the grassy ravine. The driver who hit me took off and never returned. I didn't even see who hit me — it must've all transpired in under 10 seconds of time. No one saw the accident but the police were instantly called after a California Highway worker spotted my car which he saw and believed was parked. I guess, all in all, I'd have to consider myself lucky to even walk out of the car with no injuries at all!

Otherwise no other events have happened I can think of and if I do come across anything of interest I will write you.

I hope the year 1999 will be a good one for you!

Best,
Hal Verb
